

Weekly Discovery

We SHARE to inspire and ignite ideas!

22 October 2018 - 26 October 2018

The Library publishes **9 alerts** focusing on Topics relevant to **growth and research areas** to SUTD.

Stay up to date by **subscribing** to any of these **9 Topical Reports** - [CLICK HERE TO SUBSCRIBE NOW](#)

Artificial Intelligence & Data Science	Aviation	Cities
HealthCare	Robotics & Automation	Design & Innovation
Cybersecurity	Digital Design & Fabrication	Advanced Manufacturing

3D PRINTING 3D-Printed Lithium-Ion Batteries

"Researchers have developed a new method to 3D print lithium-ion batteries in virtually any shape."

AI ETHICS Establishing an AI Code of Ethics Will Be Harder Than People Think

"Ethics are too subjective to guide the use of AI, argue some legal scholars."

Source: [MIT Technology Review](#) (21 October 2018)

ARCHITECTURE Life After Serpentine: Second Lives of Architecture's Famed Pavilions

"If the surest sign of summer in London is the appearance of a new pavilion in front of the Serpentine Gallery, then it's perhaps fair to say that summer is over once the pavilion is taken down ... Here, in reverse chronological order, the second lives of the Serpentine Pavilions."

ARTIFICIAL INTELLIGENCE Singapore AI Startup Map 2018

Source: Victor Baffet

"This list of AI startups in Singapore that we've found circulating the internet is a good gauge of the prevalence of AI in fintech."

Source: [Fintech News](#) (22 October 2018)

CREATIVITY The 100 Most Creative People in Business

"Witherspoon and her team are developing a slew of shows and films - with Apple TV, Hulu ... - while also building a direct-to-consumer brand through a fast-growing and influential book club, Facebook and YouTube videos, audiobooks, podcasts, and newsletters."

CYBERSECURITY Defending Against Spectre and Meltdown Attacks

"New system breaks up cache memory more efficiently to better protect computer systems against timing attacks."

Source: [MIT News](#) (18 October 2018)

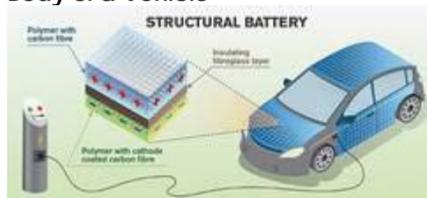

INTERNET OF THINGS The Social Behavior of Honeybees Applied to IoT Systems

"Significant benefits for bees of IoT technologies lie in monitoring beehives remotely, reducing the time spent inspecting bees and thereby decreasing their stress levels."

MATERIALS SCIENCE Carbon Fibre Can Store Energy in the Body of a Vehicle

"A study has shown that carbon fibres can work as battery electrodes, storing energy directly. This opens up new opportunities for structural batteries, where the carbon fibre becomes part of the energy system."

Source: [Chalmers](#) (18 October 2018)

MATERIALS SCIENCE Nanosized Ferroelectrics Become a Reality

"Conventional wisdom dictates that ferroelectric properties disappear when the bits are made smaller. University of Groningen (UG) physicists have now gathered evidence that could persuade the skeptics."

SUPERCAPACITOR 3D-Printed Supercapacitor Electrode Breaks Records in Lab Tests

"Advances in supercapacitor technology could lead to wider use of fast-charging energy storage devices and novel designs for electronic gadgets."

Source: [UC Santa Cruz](#) (18 October 2018)

TECHNOLOGY Special Report Japan: Innovation and Technology

"Japan's scientists are upgrading its Super-Kamiokande neutrino detector, turning to plastic for electric cars and enhancing eel farming with 'marine snow'. The country has big ambitions in space and hopes to create 20 unicorns by 2023."
